Portfolio: lsgcodes.github.io/CL-NTSILA-portfolio/Portfolio.html

PROFESSIONAL SUMMARY

Final-year Diploma in Computer Science student at Tshwane University of Technology, seeking a Work Integrated Learning (WIL) placement as required for the completion of my qualification. Specialising in Java and Software Programming, recognised as one of the top Java programmers in the department, and awarded top learner status in Mpumalanga. Experienced in building full-stack applications using React, Spring Boot, Java, and Supabase. Ready to contribute meaningfully to a professional development environment while fulfilling my WIL academic requirement.

WIL Details — **Institution:** Tshwane University of Technology | **Qualification:** Diploma in Computer Science | **Available From:** Semester 2, 2026

EDUCATION

Diploma in Computer Science (In Progress) | *Tshwane University of Technology, Mpumalanga* | Feb 2024 – Jun 2027

- WIL (Work Integrated Learning) placement required for qualification completion — available from Semester 2, 2026
- Expected to complete coursework in Semester 1, 2026; graduation anticipated in 2027
- Recognised as one of the Top 3 students in Java Programming

National Senior Certificate (Matric) | *Bushbuckridge Secondary School, Mpumalanga* | Jan 2023 – Nov 2023

- Awarded Top Learner in Mpumalanga — selected for SAICA Camp in recognition of academic potential

TECHNICAL PROJECTS

Municipal Complaint Reporting System | *Team Project* | 2026

- Developed a full-stack smart municipality platform to improve communication between citizens, workers, councillors, and administrators
- Implemented role-based authentication, real-time complaint tracking, and admin/councillor dashboards
- Used Supabase cloud database for global access and real-time synchronisation across multiple devices
- Showcased as a standout innovation project on campus in 2026 for real-world social impact

Technologies: React, JavaScript, Supabase, HTML, CSS

Car Wash Queue Management System | *Team Project — DOT (Toyota Hilux 4x4 Brand)* | 2026

- Built a modern queue management system for a commercial car wash business, optimising vehicle workflow and customer experience
- Developed the backend using Spring Boot with automatic database connectivity and REST API integration
- Created queue monitoring dashboard for real-time service process tracking

Technologies: React, Spring Boot, Java, HTML, CSS

Haircut Booking Web Application | *Individual Project* | 2025

- Built a responsive web app enabling users to schedule haircut appointments and manage bookings online

Technologies: HTML, CSS, JavaScript

Additional Projects | 2024 – 2026

- **Task Manager App:** Java desktop application for managing and prioritising academic tasks
- **Creche Management App:** Application for registering and managing children's data, with text-file-based storage

- **Encryption Message App:** Java application that encrypts and secures messages stored in text files
- **Personal Portfolio Website:** Responsive portfolio site showcasing projects, skills, and developer journey

EXPERIENCE

Private Peer Tutor & Mentor | *Tshwane University of Technology* | 2024 – Present

- Assisted fellow students with programming concepts, debugging, and problem-solving in Java and web development
- Demonstrated strong communication and patience when breaking down complex technical topics for peers
- Consistently took initiative to support others, reflecting professional work ethic sought in WIL environments

TECHNICAL SKILLS

Programming Languages: Java (Advanced) — OOP, JavaScript (80%), Kotlin (65%), SQL (90%)

Frontend Development: React, HTML5, CSS3

Backend & Databases: Spring Boot, Supabase, REST APIs

Tools & Platforms: Git, GitHub

Professional Skills: Teamwork, Communication, Problem-Solving, Initiative, Mentoring

Languages: English, Zulu, Swati, Xhosa, Sepedi, Sesotho, Sepulana
